

Commitment to Home Learning Awards

At Bluecoat Beechdale Academy we are proud of each and every student. We know they are taking the opportunity to work from home and progress independently in these challenging times, and we do not want these efforts to go unnoticed.

Staff are recognising the good work of students through their Google Classroom activities, submitted homework and through their conversations with staff each week. Where it is clear that students are showing a real commitment to keeping their learning going as best they can or taking the time to learn a new skill at home, staff are giving 'commitment to home learning' positive points.

Aiming for 'commitment to home learning' points might help you to:

- Structure your day and keep busy
- Maintain your academic progress
- Develop the skill of independent learning and self-motivation
- Maintain your mental health

Awards

As of April 2020, we have been awarding prizes to students who have achieved 'commitment to home learning points'. Students will receive prizes either via email or in the post to recognise their achievements.

Week Commencing Monday 27th April 2020

This week's winners
