Period	Subject	Work to be completed
1	English	Read the extracts from 'Dracula' on page 19 of your Gothic booklet. What happened to Dracula to make him act and behave the way he does? Can you create a backstory describing the events that led up to him becoming the villain that he is? In your books, create a timeline of his life from childhood to now, what key things MIGHT have happened? What crimes do you think he has committed? Using these ideas can you write a description of Dracula when he was at school? Before he became a dangerous vampire? Start with... "Dracula was a quiet, pale and scruffy looking boy who sat alone in the corner of the classroom.."
